NO. 30 HEMEROCALLIS PUBLICATION by J. B. S. Norton February 1949

9 Hyattsville, Md.

OTHER RECENT NUMBERS

No. 21. Hemerocallis that do well in Montgomery County, Maryland. In manual of plant material published by Men's Garden Club of Montgomery Co. p. 9-11, March 1948.

No. 22. Registration of Hemerocallis clones. Heabertia 13:110-116, 1948.

No. 23. Daylily choices. Herbertia 14:68-69, March 1948.

No. 24. Registration of Hemerocallis clones. Herbertia 14:123-128, March 1948.

No. 25. Making new daylilies. Herbertia 14:134-137, March 1948.

No. 26. A daylily is not a lily. Midwest Hemerocallis Society News Letter, Vol.1, No. 2, p.6. June 1948.

No. 27. Some problems for investigation in 1948. Midwest Hemerocallis Society 1948 Yearbook, p. 39. September 1948.

No. 28. Hemerocallis species, 1.c. p.49-51.

No. 29. Notes published by others, 1c. p.65, 124

PRICE LIST FOR SPRING 1949

J. B. S. Norton, 4922 Fortieth Place, Hyattsville, Md.

Prices are for divisions shipped prepaid; they are 10/, less for delivery at the Garden, or on orders of \$10 or more. Figures give height in feet. Colors are approximate. Daylily colors vary with light, temperature, moisture, and time of day.

Each week in blooming season, the best of each kind and color is marked with a *, and a few of these with **, as the cream of all. These marks of quality are given in the list below. Those that do not get a * for at least one week in three years' trial are discarded and not included in the price list, but here are some of them at 25¢ each. They might do better with you: Algeria, Amber Gold, Antares, Chrome Orange, Crown of Gold, Flava Major, Flopham, Golden Mantle, Gold Imperial, Harvest Moon, Lady Fremor Hesketh, Lemon King, Lutsola Major, Luteola Pallens, Mandarin, Miranda.

Daylilies succeed under a great variety of conditions. They bloom for two to six weeks, from spring to late fall, nearly all colors and color combinations except blue and white. They are hard to kill. Favored planting times are April and August, or just after blooming. They are usually at their best the third year after planting.

Visit our Garden about May 20 to see most early kinds in bloom; June 15, to see the Japanese Iris Garden. July 10 is the peak of bloom for the hundreds of kinds of summer blooming daylilies, and soon after Lilium superbum, wild among the iris. In mid-August our new late hemerocallis hybrids are in flower. But a visit each month from March to November is needed to see all our 2,700 kinds of plants in bloom. There are over 500 named kinds of daylilies, and thousands of unnamed hybrids to be seen; also all kinds of plantain-lilies (Hosta, Funkia).

NEW AND VERY SCARCE. \$5.00 each while they last

CAROL ANN (Norton, 1949), midsummer, 3-4 feet, sepals buff, petals old rose.

HIDDEN GLOW (Norton, 1949), late spring, 2-3 feet, light buff, sometimes a glow of red in the petals; was numbered NN.

ARTEMIS (Norton, 1949), midsummer, 2-3 feet, light yellow, sepals narrow and blunt, petals very wide near the tip and round as a half circle.

<u>ALBERT GORHAM</u> (Norton, 1949), midsummer, 4-6 feet, the large, bold flowers with blends of dark old rose and related colors brightened by the wide, buff petal mid-lines; was numbered AM.

NARCISSA (Norton, 1948), midsummer, 3 feet, light yellow with a pink tinge, widest segments.

ANOTHER, MORE ABUNDANT, AT \$3.00

PREVERNAL (Norton, 1949), very early, light yellow, starlike flowers; was numbered NS.

NEWLY INTRODUCED BALLARD CLONES

Two charming daylilies with abundant small flowers in August, from the breeding gardens of W. R. Ballard, well known horticultural specialist; see Herbertia 14:25. \$5.00 each.

DAINTY PASTEL (Ballard, 1948), 2, sepals yellow, petals salmon, very wide, frilled on one side.

COLOR CONTRAST (Ballard, 1948), similar to the latter, sepals sunflower yellow, petals chrysanthemum orange.

12 segments	• 50

SEEDS

Prices of Hemerocallis seeds and instructions for growing new kinds from them will be sent on request.

Write to the Secretary, Mrs. Pearl Sherwood, Atlantic, Iowa, about joining the Hemerocallis Society; and to E. Frederick Smith, Box 2398, Stanford, California, about the American Plant Life Society and its annual, Herbertia, which has published more on Hemerocallis than any other periodical.
